Contractor Quote Questionnaire

We check the specifications so your quote is complete and your job is organized. We never see your customer or your prices unless you send them to us. Anything without a * can be answered "not sure".

First quote free, with a 1-hour call. Add the materials list and work order for $50. After that $100 a quote, or $150 for the full package, each with a 1-hour call. Pick in part 4.

Fill it out, take a photo of each page, and text the pages with your job photos (at least 3, every area) and your sketch to **(508) 343-0101**, or email **info@sattvatech.com**. Or fill it out online at **sattvatech.com/contractors**.

3 Tell us in your words

What the customer wants and why now; what worries you; the one thing you are not sure how to price; anything about the customer (timing, how picky). A voice note of up to 2 minutes works too.
